Gain Rapid Results
and Make Real Impact
Through Predictive
Project Management

Gain advanced warning of project trouble or failure

Enhance your project capabilities with TrueProject QuickStart

The TrueProject QuickStart is the fastest, easiest, and most powerful way to take control of your technology projects. Leverage the predictive intelligence solution of TrueProject in just days. With TrueProject QuickStart, your organization is “live” on Day One and receives real business value and insight in the first ten days.

TrueProject, is not just another project management software product; it's your predictive intelligence and AI-powered central project management powerhouse. As a comprehensive project management (PM) SaaS solution, TrueProject a transformational force that enhances and elevates your existing PM frameworks. Its innovative PM health dashboards are the central hub for monitoring and managing all projects and their activities. This unique feature positions TrueProject as a pivotal control center enabling seamless integration with your existing PM and financial tool's data directly from its Derived Insight dashboards to provide complete context of your projects

and to determine advance warning of trouble or even failure for all of your projects.

TrueProject transcends traditional task management functionalities to establish itself as the definitive go-to digital place for all project management needs. Additionally, TrueProject's predictive analytics automates data collection from your various sources, including project management, tasks, and financial systems.

The result? TrueProject significantly minimizes project failure, delays, and unforeseen costs, ultimately boosting customer satisfaction.

TrueProject QuickStart delivers:

- ✓ Rapid go-live experience with TrueProject
- ✓ A quick initial assessment of up to three projects
- ✓ Real business value in first 10-days
- ✓ Ongoing oversight

Affordability and flexibility of TrueProject without compromising features.

Project visibility at your fingertips!

Concise project status in just minutes.

TrueProject QuickStart Highlights:

✓ Precision-Driven Project Insights

TrueProject offers PM health dashboards, a central hub that delivers unparalleled insights and transforms how you view project data. Its laser-like precision reveals your project's true status because it's analysis is forward thinking because it is based upon KPI's and not tasks.

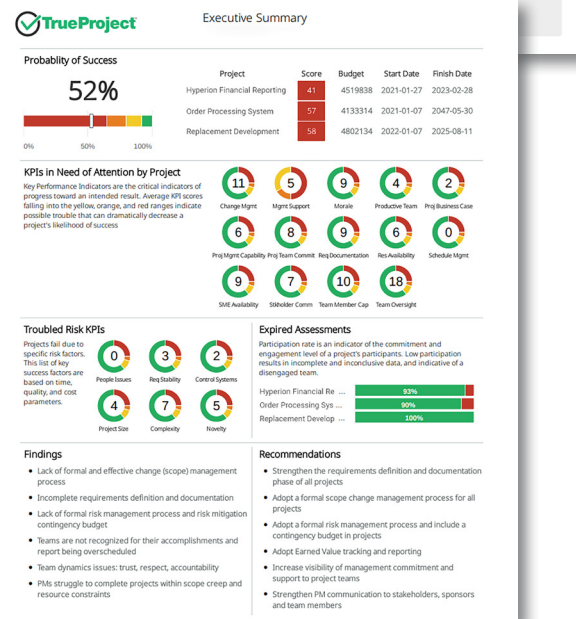

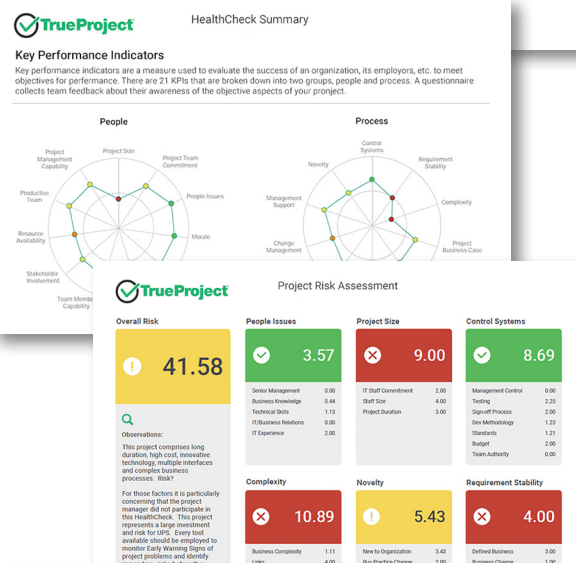

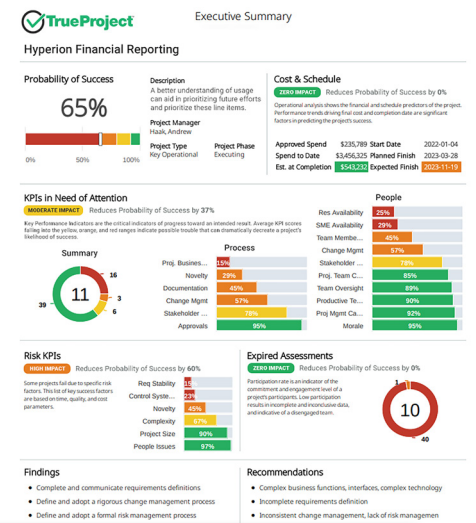

✓ Streamlined Assessments

Say goodbye to time-consuming internal evaluations. TrueProject QuickStart effortlessly collects stakeholder feedback through our field-tested and patented questionnaires, delving into team dynamics and potential risks.

✓ Optimized Performance

Foster open communication and shared accountability. Assessments uncover skill gaps, resource imbalances, and hidden issues, providing actionable insights to address problems, optimize resource allocation, and build unified, high-performing teams, resulting in the value you intended your projects to deliver.

TrueProject QuickStart ensures continuous oversight, alerting management to issues requiring attention. Elevate your management team's oversight, assurance, and project visibility to unprecedented levels.

TrueProject QuickStart
