

# TrueProject for NetSuite SuiteProjects Pro = Predictive Oversight + Delivery Confidence

Purpose-built for SuiteProjects Pro to surface risks early, ensure delivery, and protect business outcomes.

**In today's world:** delivering projects on-time, on-budget, and without surprises isn't optional—it's survival. Your reputation, performance, and resources are on the line. That's where NetSuite SuiteProjects Pro and TrueProject comes in:

*“It’s not just oversight. It’s AI-Driven predictive intelligence—delivered, integrated, and ready.”*

TrueProject is a KPI-based predictive project management SaaS solution that improves project health and performance.

## SUITEPROJECTS PRO = THE COCKPIT

- Manages the internal operations of your flight (project)
- Tracks budgets, timelines, resources, and tasks
- Focused on navigation and execution

## TRUEPROJECT = THE AIR TRAFFIC CONTROL TOWER

- Delivers AI-powered, predictive oversight across your entire portfolio
- Identifies risks early and guides teams to avoid project “collisions”
- Drives smoother outcomes through strategic foresight and real-time alerts

**TOGETHER: FLIGHT CONTROL + AIRSPACE INTELLIGENCE = PROJECT EXCELLENCE**

## Oracle Endorsement

*AI-driven insights and predictive intelligence are essential for professional services organizations to stay competitive. This new SuiteApp extends our robust SuiteProjects Pro solution, helping NetSuite customers reduce project risks, improve resource utilization, and drive better overall project outcomes.*

## Analyst Credibility

*Professional services organizations now have the power of AI-driven governance at their fingertips—TrueProject and SuiteProjects Pro together mean no blind spots, just better outcomes. The partnership between TrueProject and NetSuite SuiteProjects Pro is a game-changer—bringing predictive intelligence and AI-driven insights to professional services automation, ensuring projects stay on time, on budget, and on track.*
