TrueProject for NetSuite SuiteProjects Pro:
What You'll Gain with the Combined Solution

Experience a groundbreaking advancement in project management with the integration of TrueProject's AI-driven predictive intelligence and NetSuite SuiteProjects Pro's comprehensive Professional Services Automation (PSA) capabilities. This joint solution empowers you to proactively identify and mitigate project risks, optimize resource utilization, and ensure projects are delivered on time and within budget. By combining real-time analytics with robust automation, this partnership offers exceptional visibility and control over your portfolios and project lifecycles, setting a new standard for efficiency and success for your professional services.

What is TrueProject?

TrueProject is a KPI-based predictive project management SaaS solution that improves project health and performance. TrueProject uses advanced warning, predictive intelligence, and AI to identify potential project issues before they become critical. By delivering automated project oversight and governance, you can take immediate action to ensure your projects stay on track and within budget.

The bottom line - TrueProject improves delivery, success, and customer satisfaction.

Why This Collaboration Matters to You?

TrueProject

Groundbreaking, Sentiment-Driven Intelligence

With sentiment-driven intelligence, TrueProject combines human insights with system data, delivering a comprehensive view of project health. This capability is more than project monitoring—it is the capability for proactive decision-making.

Remarkable Predictive Risk Alerts

TrueProject's predictive risk alerts help management identify early warning signs before they escalate into critical issues. With real-time insights, TrueProject enables proactive decision-making, allowing organizations to address potential risks early and keep projects on track.

Adaptive Governance with Actionable Insights

Through adaptive risk control and the ability to take action on insights before trouble occurs, TrueProject elevates your governance and oversight to a risk-avoidance capability. Continuous oversight means no blind spots, just a clear path to deliver projects on time and within budget.

NetSuite SuiteProjects Pro

Effortless Resource Optimization

SuiteProjects Pro empowers you to maximize productivity with advanced capacity planning. Allocate resources intelligently by skill set, experience, and availability—ensuring the right person tackles the right task every time.

Precision-Driven Financial Oversight

SuiteProjects Pro provides comprehensive control over your project financials. Align budgets with actuals in real-time, measure profitability with ease, and streamline billing processes through automated, advanced invoicing tools.
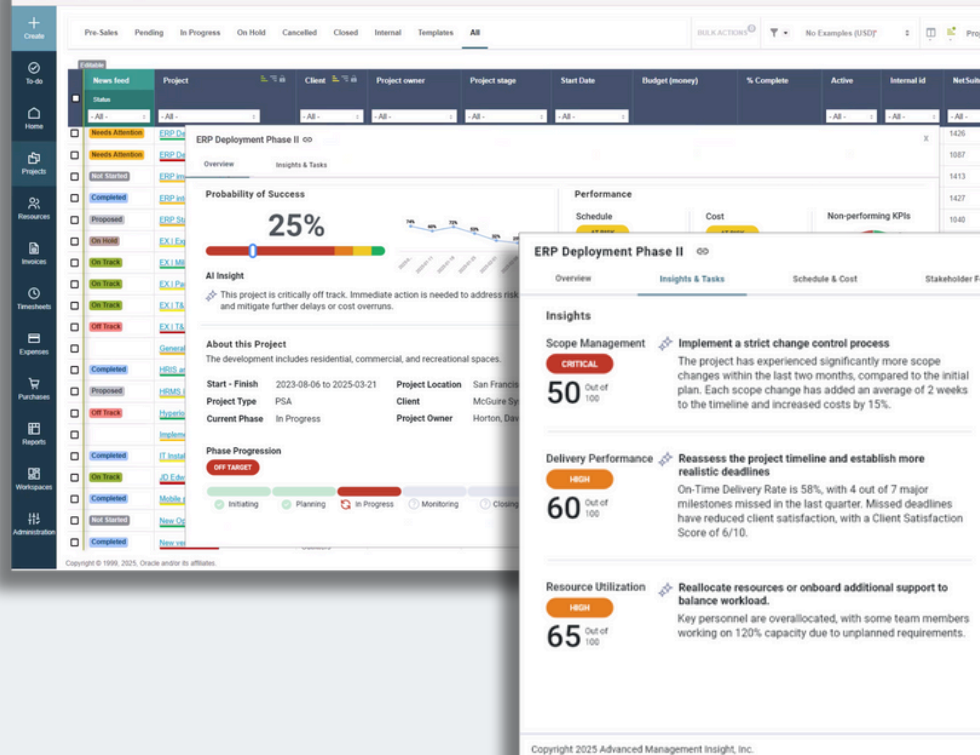

Anywhere Productivity

Stay in control from anywhere with SuiteProjects Pro's mobile-enabled tools. Submit time and expenses, monitor project progress, and approve critical tasks seamlessly—empowering leadership on the go.

Together, TrueProject and NetSuite SuiteProjects Pro redefine professional services delivery—bridging predictive intelligence with advanced resource and financial oversight, ensuring every step from planning to delivery is efficient, precise, and seamless. This is the future of professional services automation today—a foolproof way to ensure project success.
