

Strategic Project Intelligence: *Predict. Prevent. Perform.*

Stop  
project  
problems  
before they  
start—with  
Predictive AI

Strategic Project Intelligence: *Predict. Prevent. Perform.*

# Why are projects still missing the mark?

Project failures are costly, yet still far too common.

- ✓ Are **unreported delays** hidden beneath optimistic updates?
- ✓ Do **recurring mistakes** quietly drain time and resources?
- ✓ Are **best practices sidelined** under delivery pressure?
- ✓ Does **stakeholder confidence decline** before anyone notices?
- ✓ Do your reports reflect **reality or perception?**

As complexity grows, organizations need **AI-powered**, sentiment-integrated project intelligence that identifies risks before they become impacts. TrueProject provides impartial, continuous predictive verification, combining human and data signals to pinpoint issues early, reduce risk, and lower operational costs.

TrueProject's *Strategic Project Intelligence* (SPI) framework extends predictive oversight beyond traditional reporting. By fusing behavioral analytics, sentiment signals, and KPI data, SPI delivers proactive assurance—turning foresight into measurable action before risks materialize.

## CONTINUOUS, AI-POWERED PROJECT OVERSIGHT

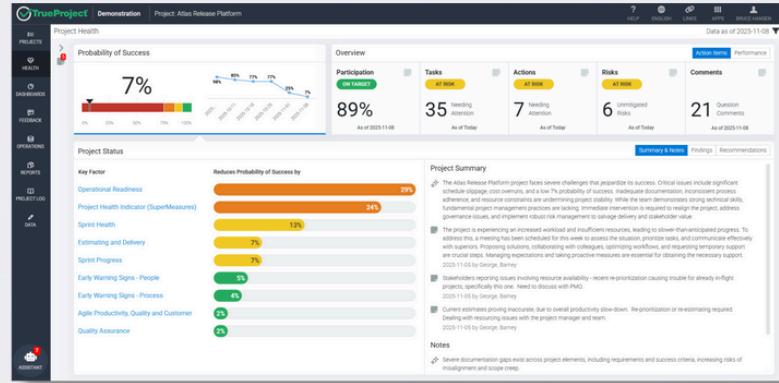

See the health of every project in your portfolio with **real-time AI predictive scoring**. TrueProject merges system KPIs with human sentiment analytics to reveal the true status of your initiatives. Know which metrics and emotions are driving risk, performance, or success. Proactively address problems before they become critical and maintain organizational alignment.

## PREDICTIVE INSIGHT THAT SEES WHAT OTHERS MISS

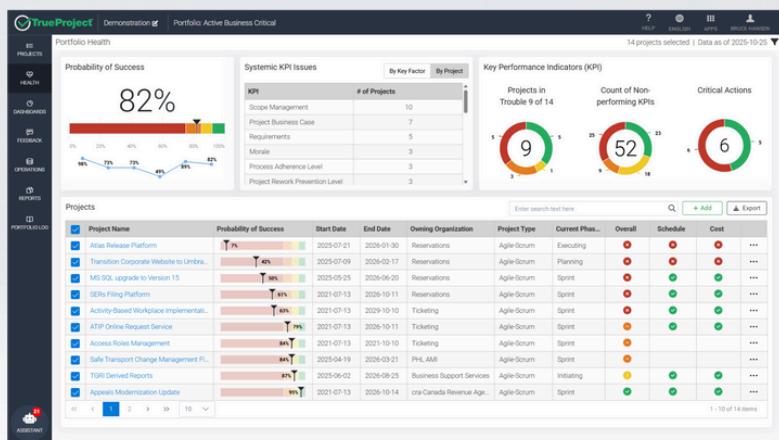

TrueProject's *Strategic Project Intelligence* grounds the probability of success in what people say and what the data shows—delivering predictive foresight and governance with confidence. It delivers **AI-driven recommendations** powered by best practices, live execution data, and machine learning. Anticipate challenges early, act with confidence, and make decisions driven by real human and data insight—across your entire portfolio. Remove uncertainty and drive reliable outcomes throughout your project lifecycle.

## GAIN TRUE VISIBILITY THROUGH DYNAMIC OVERSIGHT

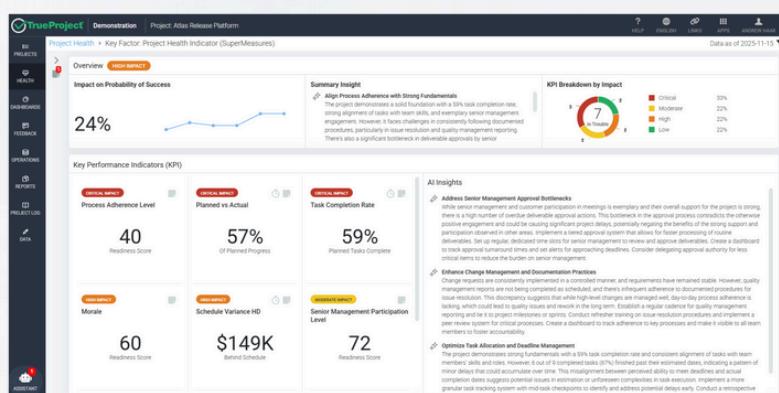

TrueProject continuously adapts its **predictive AI oversight** as your project evolves—from planning to delivery. By analyzing both quantitative metrics and qualitative sentiment, it forecasts phase-specific risks and stakeholder dynamics. Interactive dashboards and automated reports empower leaders to act early, ensuring resilient, insight-driven oversight across your entire portfolio.

Leverage the people and project metrics that provide “early warning signs.”

Stay informed about the probability of your project's success.

Lead your team towards project success with accurate, actionable data.

# Automatically Monitor & Review Every Project

## Powered by

TrueProject continuously tracks project data, stakeholder sentiment, and KPIs, alerting leaders before risks turn critical. Built on the *Strategic Project Intelligence* framework, TrueProject transforms monitoring into a continuous learning system that improves with every project cycle. Predictive dashboards and **AI-driven insights** keep focus where it matters most.

- ✓ **Benchmark smarter:** Track performance. Spot project gaps. Stay ahead.
- ✓ **Status, simplified:** Turn existing data into instant, visual project health reports.
- ✓ **True health, real time:** Know what's strong and what's slipping.
- ✓ **Oversight that works:** Catch risks early. Lead with precision.

Powered by predictive intelligence and validated data, TrueProject empowers proactive oversight, smarter interventions, and outcomes that succeed by design, not by chance.

TrueProject is a SaaS-based *Strategic Project Intelligence* solution powered by **predictive AI** that foresees project risks weeks or even months in advance. By continuously analyzing project

data and stakeholder input against key performance indicators, it delivers clear, actionable insights—empowering leadership to act decisively from any dashboard before problems ever surface.

# Gain Complete Visibility and Control with Strategic Project Intelligence

One view. Every project. TrueProject's **AI insight** shows what's working, what's at risk, and where to act next.

- ✓ Receive early risk alerts before issues escalate.
- ✓ Combine both human sentiment with system data for accurate insight.
- ✓ Track custom KPIs blending operational metrics with engagement indicators.
- ✓ Rely on data-verified confidence for every project.
- ✓ Improve resource performance through predictive insights.
- ✓ Benchmark performance and adapt oversight dynamically.
- ✓ Gain real-time, actionable visibility through interactive dashboards.

Discover how TrueProject transforms traditional project management into a predictive intelligence ecosystem that aligns people, data, and decisions for lasting success. By aligning execution with strategic

goals, TrueProject ensures predictable outcomes, elevated stakeholder confidence, and measurable ROI across your enterprise. Schedule a complimentary **TrueProject Snapshot**, a precise,

unbiased assessment of your project's health; free, fast, and effortless. With a single 20-minute conversation involving three team members, you'll receive an instant-in-time project-health report within 48 hours.

TrueProject has streamlined our Argano portfolio management, replacing spreadsheets and manual processes. Its real-time insights help us address risks proactively, while the risk planning and tracking features enhance team collaboration and historical data storage. TrueProject has been transformative for our Argano PMO.

**Melissa Kane**  
Director, PMO  
Argano, LLC.

“The promise that I saw with TrueProject was that it cuts through the clutter and gives you advance warning on the health of the project, the team, and any hidden impediments.”

**Bala Varadarajan**  
Chief Operating Officer  
Systech Solutions

“This kind of solution can accurately predict project problems and their underlying issues through KPI-based root cause analysis. This is a major leap forward from traditional task management.”

**R Ray Wang**  
Principal Analyst & Founder  
Constellation Research, Inc.

What I love about TrueProject is its focus on trends and 360-degree view. Whether in a good or bad state, you can clearly see the overall trend for your projects or programs. You can then drill down to individual KPIs to understand what's impacting the trend, providing clarity for both our customers and management team at Coforge.

**John Speight**  
EVp and Chief Customer Success  
Officer, Coforge

“Now organizations can save money...and projects... by monitoring the factors that are the Early Warning Signs of project problems.”

**Dr. Robert Charette**  
International Risk Management Expert  
President, ITABHI Corporation

“To effectively manage the performance of projects and project portfolios, the ability to predict project health to guide teams to increased success is critical. This ability can ensure that project personnel act and perform as necessary for success rather than respond to project issues. TrueProject has addressed the opportunity to manage projects with the focus on performance and outcomes, to provide predictive insights to gain the knowledge of the true health of your projects.”
